

LAST MILE SERVICES FOR REMOTE JOBSITES

ABOUT US

FIELD-FIRST JOBSITE TECHNOLOGY SERVICES

ConstructEdge is an innovative technology services company that provides real-time data and live communications that enhance safety and productivity for the jobsite.

-  **TEMPORARY INTERNET SOLUTIONS**
Temporary or rapid deployment solutions for quick turn-around when a job site needs bandwidth before the main circuit can be installed or the length of the job is short.
-  **CUSTOM INTERNET SOLUTIONS**
When existing infrastructure is unavailable or insufficient to meet the needs of your project, we'll design a custom solution to meet your technology and budget needs.
-  **CUSTOM CONNECTIVITY KITS**
When you need to extend connectivity across the field of work, we build custom connectivity kits with solar power, microwave line-of-sight, and secure access points.

SERVICES

SOLUTIONS FOR HARD-TO-REACH JOBSITES

Many jobsites are remote and cover large areas. We're experts at delivering connectivity beyond the reach of the traditional ISP.

SOURCING

Internet qualifications, quoting, and vendor evaluation/recommendations.

IMPLEMENTATION

Ordering and coordination with ISP and field team for installing the ISP service.

CONTRACT MANAGEMENT

Management for billing, changes, and decommissions.

ISP MANAGEMENT

Flexible support plans for reactive or proactive network monitoring.
